

# JJW 4TH OF JULY EDUCATION DONATION

## FREEDOM

In the United States of America, the word freedom takes on many definitions depending upon who you ask. The reason there are so many answers is because we have so many choices.

This 4th of July, we invite you to take a moment to really celebrate what this holiday is about and how blessed we are to live in a country that allows us to realize any freedoms we choose.

## LIBERTY

Liberty is defined as having the right and power to act, believe, or express oneself in a manner of one's own choosing. In the United States of America, we are blessed to live in a country that has been founded on liberty.

This 4th of July, take a moment to be thankful while you are celebrating this important holiday in whatever fashion you may choose.

## ROCKS

The term "rocks" is slang for being extraordinarily cool and moving. Living in America is both extraordinarily cool and definitely very moving.

Children are able to express their love for their country without the need or desire to edit. They embrace their freedom of thought and speech quite passionately.

This 4th of July, we are following the children's lead and without editing, we are going to express from the heart what it feels like to live in this great country. America rocks!

## VISION

Through the eyes of children, our country is defined as family gatherings, celebrations, individual belief systems and faith. Wouldn't it be interesting if the group of men that sat around a table with feather pens envisioning the America of their dreams could see this piece of art from a child today? We are sure that they would be brought to tears.

The United States of America is a vision realized. We thank our forefathers for an unbelievable mission that we all believe in today. Let's celebrate.
